

Repatriation

Repatriation is a voluntary option available to refugees, and other foreigners, who would like to return to their country of origin.

The Danish Refugee Council has an advisory service you can avail of, if returning home is something you are considering. The advisory service can consist of:

- Conversations regarding the considerations involved in returning home and making plans for the future
- The chance to complete a trip to check out your planned destination
- Available opportunities for financial support
- The consequences for your permission to reside in Denmark

You can read more about the available options on the Danish Refugee Council's website
